Claim 10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 7-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 refers to a method but the claim does not state what the method is for. An amendment to the claim including what the amendment is for would overcome the rejection.

Claims 1-9 and 11-13 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the deemulsifiers specifically pointed out in claim 10, does not reasonably provide enablement for any and all emulsifiers of any and all HLB values. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to practice the invention commensurate in scope with these claims. The specifics of the demulsifier are shown on pages 6-8 of the specification. Without the specific deemulsifiers of the specification

(shown specifically at page 10) the compositions do not demonstrate the property of releasing flavor by de-emulsifying.

The disclosure is objected to because of the following informalities: \*\*\*

The disclosure contains a typographic error at the bottom of page 3. Hydrogenated should be hydrogenated.

Appropriate correction is required.
